INTER BEE DX × IP PAVILION

Proposing 'Content Production DX' through MoIP (Media over IP) and software-based transformation, fostering collaboration beyond corporate boundaries.

Overview

By leveraging 'IP' as a foundation and integrating the emerging trend of 'software-based transformation,' we aim to enhance next-generation content production efficiency through 'remote production,' 'cloud adoption,' 'automation,' and 'security.' We are inviting companies to participate in the pre-event preparations and booth development for the INTER BEE DX x IP PAVILION."

Participation Requirements

- Companies/organisations that will participate from the planning and consideration stage and promote the project by sharing the responsibility.
- Companies/organisations that are willing to provide actual equipment, explanatory panels, personnel, etc. for the actual equipment connection demonstrations at INTER BEE DX x IP PAVILION.

*When exhibiting equipment, only equipment related to any of the following and in actual operation under certain conditions may be exhibited.

- ▶ Equipment and services supporting Media over IP technologies (ST 2110, ST 2059, NMOS, etc.) for video, audio, and intercom
- ▶ Interoperability testing (video, audio, intercom, control, BCC, orchestration, etc.), regardless of vendor or user status
- ▶ Companies providing external connectivity environments, such as remote production setups
- ▶ Providers of data center environments
- ▶ Automation solutions for content production and distribution, including AI services for monitoring, highlights, and switching
- ▶ Infrastructure supporting software-based transformation, such as cloud service providers and server manufacturers
- ▶ Cloud services (X as a Service) that can be used for content production and transmission
- ▶ Equipment and services with security measures
- ▶ Providers of facility infrastructure, such as racks, fiber optics, and cables
- ▶ Security consulting and seminar services for the broadcasting industry, covering principles of information security
